

LASH LIFT/BROW LAMINATION AFTERCARE

The great thing about a Lash Lift/Brow Lamination is that it is a very low maintenance procedure however, there is a little extra care required over the first 24-48hrs.

- Be gentle with your lashes/brows; no rubbing.
- Do not get your lashes/brows wet for the first 24 hrs.
- Do not use harsh products on your eyes/lashes/brows.
- Use of Sauna/Steam is possible after 24hrs but may weaken the effect of the lift/lamination.
- No eye makeup for 24 hours.
- Avoid waterproof mascara's/eyebrow pencils.
- Swimming should be avoided for at least 24hrs.
- No other facial beauty treatments for 24hrs.

LASH/BROW TINT AFTERCARE

DAY 1:

- Do not touch or rub your eyes, eyelashes, or eyebrows immediately after the treatment.
 - If redness or irritation occurs apply a cool damp cotton compress to the eye area.
 - If symptoms persist for more than 24 hours seek medical advice.
- For the first two hours please avoid any water contact on the lashes or brows.
- Do not sleep on your face.

DAY 2:

- Avoid hot water or steam on the face or near the eyes.

DAY 3 & Continuously:

- Please refrain from all attempts to rub the eyes or lashes.
- Do not use oil-based products or any conditioning treatments/ serums on the lashes. This will cause the Semi-permanent mascara to dissolve faster.
- Effects of the tint will start to diminish within 2 to 3 weeks as hair grows out and the tint color fades.
- Strong sunlight/UV light can make the tint color fade faster– Use gentle foaming facial cleanser or eye makeup remover and avoid exfoliating cleansers or those products containing AHA's and oil.
- Do not apply makeup or mascara to lashes/brows or receive any other eye treatments for at least 24 hours after the lash or brow tinting treatment.
